

The MADRIX® Software is the preferred lighting tool of choice for industry professionals, lighting designers, operators, VJs, and enthusiasts all around the world.

From small projects and events to high-profile architectural installations, the largest stages, and the most famous clubs, MADRIX® Software makes the most creative lighting designs possible. Thanks to very intuitive controls and enormous flexibility, you can create stunning lighting effects for your LEDs in no time.

The application is a real-time effects generator for 2D pixel mapping and 3D voxel mapping with additional media server capabilities. Using the built-in graphics and rendering engine, fully customizable live visuals are created by you quickly and easily.

Combined with neat hardware products, it is a proven and innovative LED control solution. MADRIX® hardware reliably transfers the lighting data to your LEDs and controllers. Any small or large LED installation benefits from prime build quality and outstanding features, such as the built-in synchronization mode that ensures an optimal image on your LEDs without visual interruptions
